Core solution

A web-based AI fitness assistant that generates a 7-day workout plan, a nutrition or recovery tip and revised plans from feedback.

Input

Name, user ID, age, weight, fitness goal, workout intensity and optional feedback.

Processing

FastAPI validates the request, calls Gemini, and stores users and plans through SQLAlchemy.

Output

A day-by-day workout plan with warm-up, main workout, sets, reps and cooldown, plus a practical tip.
